## **REFERENCES**

In an industry where time is precious and budgets often do not keep up with the creative demand, Jenifer is someone I would never want to miss on set again. She is somewhere in between MacGyver and Chuck Norris - creative to the fullest and doesn't know 'no' for an answer. A truly unique and hard working character who I had the pleasure to work with. "

Hope this helps!

Wishing you all the best with your new agent!! Flo

Hey Beautiful,

Of course I would love to get you a reference for your agent!

Your are one of the very best production designers I ever worked with - and by far the funniest!!

I really loved working with you my dear so I would love to tell the world how amazing you are.

*"Jenifer is one of the very best production designers I ever worked with - and by far the funniest!!  
 She is an absolute doll, she knows how to handle a big budget, and she's a real magician with a smaller one.  
 I would give my right arm to work with her again in the near future"*

To whom it may concern

It has been my great pleasure to have worked with Jenifer Blatt as an Art Director on many TV Commercials over the last three years.

The TV Commercial business is always high stress due to small budgets, very little time and BIG expectations, and every time I have worked with Jenifer, she has always been a team player, in fact I cannot recall a time when she has not had a smile on her face and just got on with delivering at a very high standard.

I would not hesitate for a second to recommend Jenifer as part of any team

Yours Sincerely

Craig Darren Jones
